manufactured by Safety Xpress slide into a Sleeve, core drilled into the surface (concrete or asphalt) or set in new concrete. It is locked into the sleeve via a padlock (not supplied) to keep vehicles out, and then when you need access it's easy to unlock and take the bollard out.

These 90mm Sleeve Lock Removable Bollards are great to use as a security measure at factory door entry points and even across driveways.

The shiny black powder coating provides a sleek subtle look and each bollard is fitted with class 1 red reflective tape so you can see it at night. Add this security to your place for peace of mind, knowing that the **"Bollard"** is keeping access restricted at your place.
