| SKU:           | EXPBAR5MYB                   |
| Description:   | 5M Expanding Barrier         |
| Colour:        | Powder Coated Black & Yellow |
| Material:      | Steel & Aluminium            |
| Height:        | 980mm                        |
| Length:        | 5000mm                       |
| Wheels:        | Castor wheels included       |
| Fixings:       | Fixings included             |

The barrier is light weight and made from high quality steel and aluminium ensuring it is tough enough to stand up in any workplace environment.

You can use it with OR without castor wheels, expand it, close it, or hook another couple of barriers onto it to form longer length.

The design accommodates two or even three expanding barriers to fit together to form a 10 metre or 20 metre barrier if extra length is required.

**Product Features:**

- Expandable, expands to 5 metres
- Easily folds away
- Light weight
- You can put on / take off castor wheels as you like
- Hook on design - you can hook another expandable barrier on to form longer lengths
