<b>Height:</b>	1000mm above ground
<b>Diameter:</b>	140mm
<b>Wall Thickness:</b>	3mm
<b>Weight:</b>	13kg
<b>Key:</b>	2 x keys included (keyed alike)
<b>Fixings:</b>	4 x fixings included for installation of base plate receiver

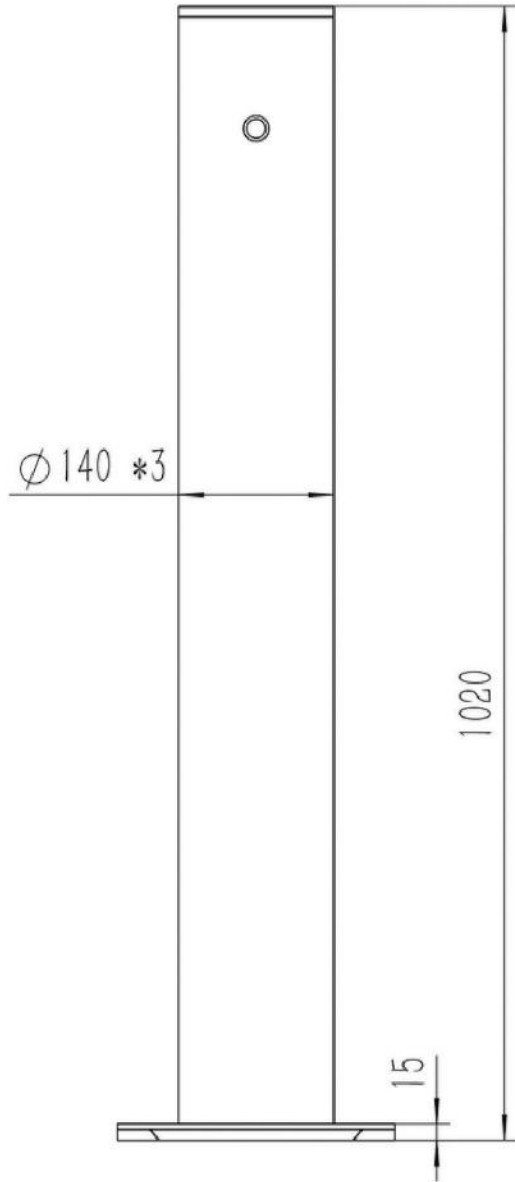

Suitable for residential applications to protect valuables such as vintage cars, jet skis, boats etc, from theft.

Our Removable Surface Mount Slider Type Bollard is made of heavy duty steel and has a specially designed low profile surface mount receiver. The receiver sits just 10mm above the ground and is secured in place easily using the countersunk anchors provided. No core drilling is required. The Sliding Removable Bollard is true to its name by using a sliding motion to remove or secure it in place.

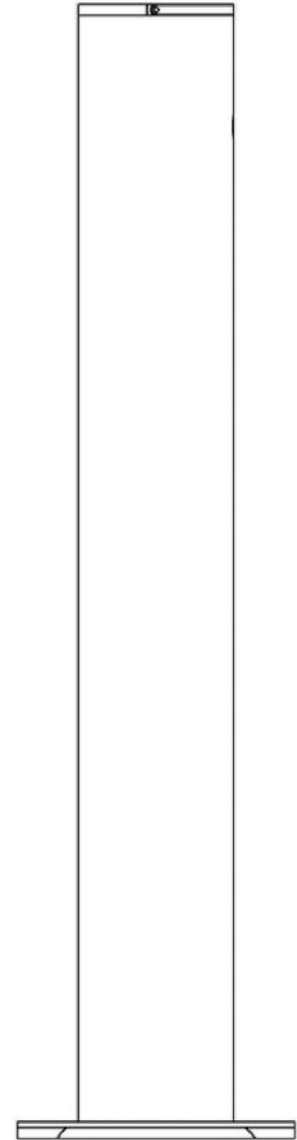

Used in areas where the floor cannot be core drilled or penetrated, such as suspended, pre-stressed slabs and areas with shallow underlying utilities.
